

Meiyun Wang, MD.

Professor and Chair of the Medical Imaging Center of Henan Province and Chair of the Department of Radiology of Henan Provincial People's Hospital.

Dr. Wang is the President-elect of ISNVD, Board of Trustee member of ISMRM, "ESMRMB/ISMRM certified teacher in clinical MRI" and the Vice-Chair of the Chinese Chapter of the ISMRM. She has served on the Annual Meeting Program Committee (AMPC), the MR Value Initiative Committee, the Chapters Committee and the Ad Hoc Committee on Women in ISMRM. She has been Chair of both the Department of Radiology of Henan Provincial People's Hospital and the Medical Imaging Center of Henan Province in China since 2016. Dr. Wang's research has focused on exploring new MRI methods to improve diagnosis and treatment of diseases of the central nervous system. Her many contributions to the field include some of the initial applications of Strategically Acquired Gradient Echo and Amide Proton Transfer imaging in stroke, and Length and Offset VARied Saturation in glioma and stroke patients.

Speech Title: The Advancement of MRI in Stroke.
